Consumerr Notes:

Mark your calendars (and get out your order blank): February seems to be the best DVD month we've seen yet! We're told that the Evangelion one WILL ship this month, and you can add that to the Best of Kitty disc (quite adult), Legend of Crystania, Cybernetics Guardian, and our very first one: the Cool Devices set (much MORE adult)! That isn't all: if you liked Tylor, you might pick up the latest volume, and you might want to consider Trigun, which is fairly Tylor-esque. Also this month is Brain Power'd (very much like Five Star Stories in design) another in both the Urusei Yatsura and Kimagure Orange Road sets, GI Joe and more Transformers! Finally, a dubbed version (and a DVD) will finally be available of the Sailor Moon R movie, and it's sure to be a hit.

Once again, a good amount of new product! Happy viewing!

JEFF'S PICK(S) OF THE MONTH

I'd like to say that Cool Devices DVD is the neatest thing this month (and it probably is), but will instead go with Trigun (a really good show) and the newest installment of Bebop.
